

FIG. 1

FIG. 2

This cross-sectional view shows a multi-layered assembly. At the top, a layer 28 is shown with a central feature 82. Below this, a layer 74 contains a central feature 44. A central vertical component 32 passes through these layers. To the right, a bundle of wires 59 is shown exiting from a layer 60. Below the central component 32, there are several horizontal layers and components. On the left, a layer 40 is shown with a central feature 72. Below this, a layer 34 is shown with a central feature 84. On the right, a layer 46 is shown with a central feature 70. Below this, a layer 73 is shown with a central feature 76. A central vertical component 42 passes through these layers. At the bottom, a layer 80 is shown with a central feature 80. The entire assembly is shown in a cross-sectional view with various hatching patterns used to distinguish different materials or layers.
